

Science in Year 2 I can.....

Working scientifically	Plants	Animals including humans	Everyday materials
ask simple questions and recognise that they can be answered in different ways	observe and describe how seeds and bulbs grow into mature plants	notice that animals, including humans, have offspring which grow into adults	identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses
observe closely, using simple equipment	find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.	find out about and describe the basic needs of animals, including humans, for survival (water, food and air	find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.
perform simple tests		describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.	
identify and classify			
use my observations and ideas to suggest answers to questions			
gather and record data to help in answering questions.
